ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. VIOLATION OF THIS FORM IS PROHIBITED.

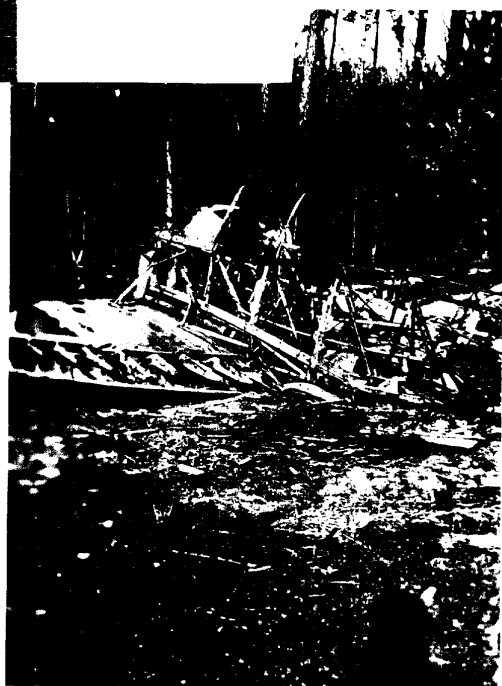

* Documentary
THIS IS UNEVALUATED INFORMATION 50X1-HUM

1. Attached are photographs of wrecked Soviet aircraft taken at Perleberg (M 54/T 70) airfield. *

* Comment. The photographs represent fighters of a Yak design. Differing from wartime designs, the planes have metal spars. From their smooth surface it is inferred that the wings are of plywood and are fabric-covered. The armament is the standard armament of the Yak designs which can be seen from the ammunition boxes and the racks of the two synchronized 12.7 mm machine guns. See Annex. The wing tanks also show the standard position typical of the Yak designs. See Annex 2 and 3. The fuselage design with its struts butt-welded in the simplest possible manner comes out particularly clearly. (See Annex 1 and 3). Except for the rubber blocks on the engine mount no other vibration-prevention devices are to be seen either at the engine or the radiator frame below it. See Annex 1. Perleberg airfield is presently not occupied by an air unit. A unit equipped with Yak fighters was last stationed there in late 1948. 50X1-HUM

REMARKS

50X1-HUM

1. The wrecked aircraft were of various types. They had two machine gun ammunition boxes in the front section of the fuselages but no weapons in the wings. A plate with the figures 25100 was attached to the engine mount.
